DETAILED ACTION

Allowable Subject Matter

1. Claims 1 and 5-14 are allowed.
2. The following is an examiner's statement of reasons for allowance: in light of applicant's amendment to the claims, wherein claims 2-4 were incorporated into independent claim 1. Claims 1 and 5-14 are now considered allowable.

Additionally, it is noted that the prior art searched and cited failed to each or fairly suggest an electron beam exposure method in which an article subjected to exposure and an electron beam irradiation spot are moved relative to each other at a continuous speed; wherein the article is exposed at a plurality of irradiation intensities of an electron beam by changing a transmittance of an electron optical system for forming the electron beam irradiation spot on the article, the transmittance of the electron optical system is changed by changing a state of hitting of a blanking mask by the electron beam, the state of hitting of the blanking mask by the electron beam is changed by controlling a state of deflection of the electron beam by a blanking deflector, and the state of deflection of the electron beam by the blanking deflector includes a first deflection state in which the electron beam is deflected in a first direction by the blanking deflector such that a whole of the electron beam hits the blanking mask, a second deflection state in

which the electron beam is deflected in a second direction by the blanking deflector such that the electron beam does not hit the blanking mask at all and a third deflection state in which the electron beam is not deflected by the blanking deflector such that a portion of the electron beam hits the blanking mask as disclosed in claim 1. All remaining claims are allowable because of their dependencies.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
